Rolaids Scoring Formula: saves = 3 points; relief wins = 2 points; relief losses = -2 points; blown saves = -2 points.

BLOWN SAVE DEFINITION: When a relief pitcher enters a game in a save situation and departs with the save situation no longer in effect because he has given up the lead, he is charged with a blown save. (If the save opportunity still exists when he leaves the game, he is not charged with a save opportunity. If the pitcher has not given up the lead when he leaves the game, though the save opportunity may no longer exist, he is not charged with a save opportunity.) This method has been a part of the Rolaids formula since 1988.

THE 125TH ANNIVERSARY OF PROFESSIONAL BASEBALL

Major League Baseball and its 28 clubs will celebrate the 125th anniversary of professional baseball in 1994.

The first professional baseball team, the Cincinnati Red Stockings, was formed in 1869. Prior to that, the game was played on an amateur basis only.

As part of this year's festivities, MLB Properties has designed a special 125th Anniversary logo. The logo is a variation of the Major League logo created for baseball's centennial celebration in 1969.

Throughout the season, MLB and other clubs will celebrate the Anniversary through various events and ceremonies. Teams will wear a commemorative patch on their uniforms and specially licensed merchandise will be available.

STAT LEADERS VS. THE FISH

Expansion clubs are usually prime fodder for the leaders in the various statistical categories, but no so vs. the Marlins in 1993. Barry Bonds hit the second of his league-leading 46 homers in his first at-bat vs. Florida pitching, but did not go deep again in 43 plate appearances. He hit at least two homers against every other NL club. Andres Galarraga hit .370 to win the NL batting crown, but hit only .244 (10x41) in 12 games vs. the Marlins. Greg Maddux was the ERA leader (2.36) but his ERA vs. Florida was 4.43. The four 20-game winners in the league (John Burkett, Tom Glavine, Bill Swift and Maddux) were a combined 3-5 with a 4.67 ERA (37 ER in 71.1 IP). The Braves rotation of Glavine, Maddux, Steve Avery and John Smoltz were a combined 4-3 with a 4.06 ERA in their starts vs. the Fish (29 ER in 64.1 IP).

THE BASEBALL NETWORK

Of all the changes that have swept across the sports television landscape in the 1990's, perhaps the most dramatic innovation occurred in May 1993 when The Baseball Network was created. Formed as a joint venture among Major League Baseball, ABC and NBC, The Baseball Network is responsible for coordinating all of the elements of MLB's network television arrangements.

The landmark venture marks the first time a major U.S. sports league or organization has elected to take control of its national television package, managing the on-air production, advertising sales and corporate sponsorship of the sport.

The return of ABC and NBC—after a four-year absence—as the network broadcasters of Major League Baseball is a combination of renewed partnership and groudbreaking innovation. The result for the viewing public is that more Baseball will be seen in prime time on network television than ever before.

NBC, whose Baseball heritage dates back to 1947, will return to the ballpark on July 12 when it telecasts the 65th All-Star Game from Pittsburgh. NBC will also telecast six consecutive Friday night regular-season games, starting August 26. NBC will also televise the American and National League Championship Series.

ABC returns to the baseball world just three days after the All-Star Game with a Saturday night telecast on July 16 and continue with five additional prime time games. ABC will also broadcast the new Divisional Playoffs and the 91st World Series.

All regular-season games will be carried in prime time on nights when school will not be in session the following morning to enable younger viewers to enjoy the complete games. Additionally, all weekend postseason telecasts, including games 1-2 and 6-7 of the World Series will air at 7 p.m. Eastern.

Regular season games will also be regionalized to enable fans to see the most meaningful game in their TV market. In home cities, the plan virtually assures fans in that city that they will see games involving their team. The package also allows for fans to be taken around the country to sample action from other key contests whenever notable events are in the making.

MARLINS IN THE NATIONAL LEAGUE

Florida tied with the Mets at the bottom of the NL hitting stats with a .248 average, but that mark rated as the fourth-best by an expansion club. They scored the fewest runs in baseball (581) which ranks as the second-fewest by expansion clubs, better only than the Padres who scored 468 in 1969. Their 94 homers were the fewest both in the majors and by any expansion club. Their 197 doubles were also the fewest in the game, but better than five other expansion clubs.

The Marlins were ninth in the league with a 4.13 ERA, which was also the third best in expansion history. They were fifth in the league with 48 saves, shattering the previous expansion mark of 34 by the Angels.

SOUTH FLORIDA BASEBALL
A Brief History

From the earliest days of the city of Miami, baseball has been a South Florida staple.

Whether as the home to numerous minor league franchises, training site for major league clubs or the home of some of the finest college and high school programs in the nation, baseball and South Florida need no introduction.

Records show that Abner Doubleday, who is credited by legend as having invented the game, was stationed at a military base in South Florida later in his career. Club teams were taking to makeshift diamonds in the area before the turn of the century, but the first minor league entry appeared in 1912 when the Miami Magicians entered the Class D East Florida State League and competed until the United States entered World War I.

After the war, several variations of minor league clubs appeared, including the Miami Tourists. On the eve of World War II, teams in the Florida East Coast League included the Miami Wahoos, the Miami Beach Flamingos, the Fort Lauderdale Tarpons and the West Palm Beach Indians. The league suspended operations in 1943 until the end of the war.

After the war, the need for a larger stadium became apparent. Jose Manuel Aleman, a former minister of education in Cuba, undertook the project. Construction began in late 1948 and Miami Stadium was opened on August 31, 1949. At the time, the 9,000-seat stadium was hailed as one of the finest and most beautiful in baseball.

By 1952, the Florida International League had risen to Class B designation and included the Miami Sun Sox (managed by Pepper Martin), Miami Beach Flamingos, Fort Lauderdale Lions (who wore shorts during the 1953 season) and West Palm Beach Indians.

The Marlins nickname made its first appearance in 1956 when the Triple A franchise from Syracuse moved into Miami Stadium. The legendary promoter Bill Veeck was brought in to run the team and one of his first acts was to sign 50-ish hurler Satchel Paige. Paige's Marlin debut was one to remember, as Veeck arranged for a helicopter to deliver him to the mound on Opening Night.

Paige played for three seasons with the Marlins, and was the starting pitcher on August 7, 1956 when baseball moved to the Orange Bowl for the first time. Thanks to pre-game festivities that included Cab Calloway and Merv Griffin, a crowd of 57,713 filled the stadium for a 6-2 victory by Paige and the Marlins over the Columbus Jets.

The night raised more than $30,000 for charity, but did little to build a long-term base of fans for the team. Plagued by poor attendance and other financial problems, the Triple A franchise moved to San Juan, Puerto Rico after the 1960 season.

After the Marlins departure, South Florida's professional baseball connection has been either through hosting various major league spring training sites or through the Class A Florida State League entries, including the Fort Lauderdale Yankees and a Miami franchise with several different nicknames (Marlins, Orioles and Miracle).

In 1979, Triple A baseball made a brief return to South Florida with the Miami Amigos of the Inter-American League. The league lasted only until mid-July before financial problems brought it down. From that moment until April 5, 1993, the only baseball above the Class A level in South Florida was played during the spring.

SOUTH FLORIDA BASEBALL *continued*

Major league clubs have sought refuge in the warm South Florida climates as they prepared for the upcoming season since the days of Babe Ruth. At one time or another, South Florida was the spring home of the Giants, Reds, Browns, Athletics and Pirates and remains the site for the Braves, Mets, Expos and Yankees.

But while the professional game has become mostly a spring-time guest, the amateur programs have become nationally prominent.

At the University of Miami, Ron Fraser built over 30 years what was to become the model collegiate program. Not only did the team prosper on the field, becoming a regular participant in the College World Series and a two-time national champion, but Fraser proved that a collegiate program could be successful at the gate as well. Armed with a never-ending series of promotions, Miami has packed in the fans at home and become the envy of many a minor or major league team as well.

At the same time, the various high school and junior college programs in the state have churned out a never-ending stream of blue chip prospects, the results of a year-round affinity for playing the game.

South Florida's interest in baseball was further solidified by the influx of Cubans since the late 1950's.

In the mid-1950's, Havana was host to a legendary Triple A entry, the Sugar Kings. Starting with Minnie Minoso, a host of Cuban players such as Cookie Rojas, Bert Campaneris and Tony Perez made their way to the major leagues and opened baseball's collective eyes to the vast wealth of talent available in the Caribbean.

That tradition continues today in the person of such Cuban-American products as Jose Canseco, who made his pro debut with the Class A Miami Marlins in 1982. Other current major leaguers who wore a minor league Marlins uniform include Dennis Martinez and Eddie Murray of the Indians, Orioles manager Johnny Oates and current Marlin Benito Santiago.

With the coming of the Florida Marlins to the area in 1993, major league baseball no longer heads north for the winter. Instead the baseball fans of South Florida are able to experience first-hand what they have long coveted, a big league team of their own.

RULES OF INTEREST

PLAYER LIMITS: 40 until Opening Day, when the number must be reduced to 25 until September 1, when it again becomes 40.

TRADING REGULATIONS: Players are available on waivers in reverse order of standings at the time waivers expire, if more than 30 days after the start of the season; otherwise in reverse order of standings at the close of the preceding season.

WAIVER PERIODS: End of season-30th day of the season; 31st day of the season-July 31st; August 1st-end of the season. For assignment from one Major League club to another, waivers are necessary ONLY beginning August 1 and ending on the day following the close of the championship season. At all other times, no waivers are necessary for trades at the Major League level.

QUALIFICATIONS FOR A ROOKIE: Not more than 130 at-bats or 50 innings pitched in the major leagues during the previous season or seasons, nor more than 45 days on a major league roster during the 25-man player limit (excluding time in military service).

NIGHT GAME: Any game that starts at 5 p.m. or later.

QUALIFICATIONS FOR BATTING CHAMPIONSHIP: Highest batting average based on a minimum of 502 plate appearances, which may include walks, sacrifices, hit by pitch, etc.

QUALIFICATIONS FOR PITCHING CHAMPIONSHIP: Lowest earned run average with a minimum of 162 innings pitched.

SAVE RULE: Credit a pitcher with a save when he meets all three of the following conditions: 1) He is the finishing pitcher in a game won by his club; 2) He is not the winning pitcher; and 3) He qualified under one of the following conditions: A) He enters the game with a lead of no more than three runs and pitches for at least one inning; or B) He enters the game, regardless of the count, with the potential tying run either on base, at bat or on deck (that is, the potential tying run is either already on base or is one of the first two batsmen he faces); or C) He pitches effectively for at least three innings.

CONSECUTIVE HITTING STREAKS: A consecutive hitting streak shall not be terminated if the player's plate appearance results in a base on balls, hit batsman, defensive interference or a sacrifice bunt. A sacrifice fly shall terminate the streak.

CONSECUTIVE-GAME HITTING STREAKS: A consecutive-game hitting streak shall not be terminated if a player's plate appearances (one or more) result in a base on balls, hit batsman, defensive interference, or sacrifice bunt. A sacrifice fly and no hits shall terminate the streak.

CONSECUTIVE-GAME PLAYING STREAK: A consecutive game playing streak shall be extended if a player plays one half inning on defense, or if he completes a time at bat by reaching base or being put out. A pinch running appearance only shall not extend the streak. If a player is ejected from a game by an umpire before he can comply with the requirements of this rule, his streak shall continue.

DETERMINING BATTING AVERAGE: Divide the number of hits by the number of at-bats.

DETERMINING AN EARNED RUN AVERAGE: Multiply the number of earned runs by nine and then divide that number by the number of innings pitched.

DETERMINING SLUGGING AVERAGE: Divide the total bases of all safe hits by the total times at bat (at-bats do not include walks, sacrifices, hit-by-pitch, or times awarded first base because of interference or obstruction).

DETERMINING FIELDING PERCENTAGE: Divide the total putouts and assists by the total number of putouts, assists and errors.

DETERMINING ON-BASE PERCENTAGE: Divide the total number of hits, total bases on balls and hit-by-pitch by the total of at-bats, total bases on balls, hit-by-pitch and sacrifice flies (for the purpose of this percentage, ignore being awarded first base on interference or obstruction).

DETERMINING WON-LOST PERCENTAGE: Divide the number of games won by the number of games played.

DETERMINING THE MAGIC NUMBER: Determine the number of games yet to be played, add one and subtract the number of games ahead in the loss column of the standings from the closest opponent.

JOE ROBBIE STADIUM

Joe Robbie Stadium, home of the Florida Marlins and Miami Dolphins

Joe Robbie Stadium, "South Florida's Major League Facility," serves as home of the Florida Marlins, in addition to the NFL's Miami Dolphins, for the 1994 season.

- now in its seventh year of operation, the 115 million dollar, state-of-the-art, open-air facility was the first of its kind to be constructed entirely with private funds.
- plans for the stadium were first announced on March 5, 1984...the clearing for the stadium site began on July 22, 1985 and ground breaking ceremonies were held on December 1, 1985.
- financing for JRS was based largely upon the licensing of executive suites and club seats on a 10-year basis...executive suites range in price from $30,000-$58,000 per year...club seats cost between $800-$1,800 per year on a 10-year license.
- on March 7, 1990, H. Wayne Huizenga agreed to purchase 50 percent of Robbie Stadium Corporation, the parent company of Joe Robbie Stadium, enabling him to begin his pursuit of a major league baseball franchise.
- the first football game in JRS was held on August 16, 1987, when the Dolphins hosted the Chicago Bears in a preseason contest...the Baltimore Orioles and Los Angeles Dodgers battled on March 11, 1988, marking the first-ever baseball game held at JRS.

BASEBALL RENOVATIONS

In order to accommodate Major League baseball in Joe Robbie Stadium, the facility underwent a series of renovations.

- conversion included the installation of retractable seating on the north side of the stadium and the construction of the baseball press box in the south west corner of the facility...baseball dugouts were added in addition to 660 new lights for suitable night play...the renovation also includes an electric disappearing pitcher's mound, construction of a 5,500 square foot manually operated scoreboard and a picnic area in the right field bleachers that can accomodate 400 specators.
- the stadium also features a synthetic warning track designed to absorb water...the only other facility to feature this type of track is Oriole Park at Camden Yards, the new facility of the Baltimore Orioles...clubhouses and other amenities were added for baseball.

MARLINS MANUAL SCOREBOARD

The Marlins maual scoreboard starts 32 feet from the left field foul pole and runs 202 feet into left-center field. A ball must be hit over the scoreboard for a home run (a ball that strikes off any portion of the scoreboard is in play, including the hands of the clock). Gary Sheffield, while a member of the San Diego Padres, was the first to hit a home run over the scoreboard when he connected off Bryan Harvey on April 9, 1993. Derek Bell was the first to hit one off the board above the pad on April 11, 1993. More than 3,600 individual numbers were produced for the out-of-town scoreboard to try and accomodate all the possible combinations of runs that might be scored in baseball.

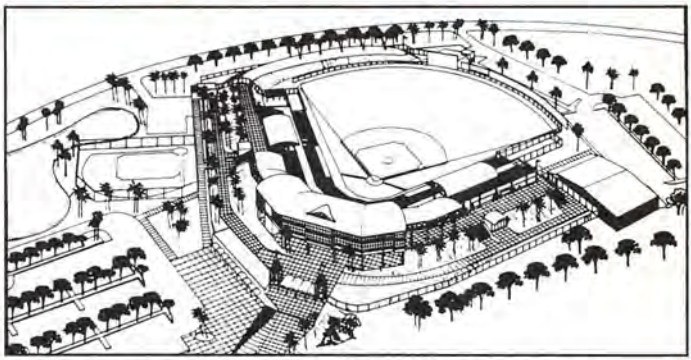
SPRING TRAINING INFORMATION



Space Coast Stadium, the Spring Training Home of the Florida Marlins.

The Florida Marlins begin their second spring training camp in style as they open their new Grapefruit League home, Space Coast Stadium, on March 4 against the Kansas City Royals.

Space Coast Stadium is the 7,200 seat centerpiece of the Marlins Brevard County operation. In the spring, it will house offices for the Marlins major league staff, clubhouses for both the Marlins and visiting teams in addition to media work and dining areas. After the major league club breaks camp at the end of March, the stadium will become the home of the Marlins new entry in the Florida State League along with a variety of other baseball events.

In addition to the 7,200 permanent seats, Space Coast Stadium also features 11 luxury suites located on the press level and a grass-covered berm beyond the left field fence that will serve as additional general admission seating.

Training Camp is set to open on February 17 at the Carl Barger Baseball Complex at Viera. The complex opened in time for the Marlins first spring training camp in 1993 and the Marlins will utilize the clubhouses at the complex for the first 10 days of training camp before moving to the stadium just prior to the start of the Grapefruit League season.

The Carl Barger Baseball Complex was designed by the firm of Lescher and Mahoney, while Space Coast Stadium was designed by the firm of L.D. Astorino & Associates, Ltd. Both projects were constructed by Miorelli Engineering.

Offices for the Marlins Media Relations Department and the Media Workroom will be located at the stadium. No trailers will be installed at the complex. The workroom is directly behind the seating area of the Press Box, located on the third level of the stadium. The Press Dining area, which will be open prior to the start of each exhibition game, is located on the first base side of the stadium on the concourse level. Admission to the dining area is by either a Major League spring training credential or a Marlins spring season pass or daily credential.
